

**DELL**Technologies

# Powerful mobility

—

## XPS 14 | 9440

Unlock non-stop creativity with the XPS 14, a perfect balance of go-anywhere mobility and high performance.

# Power your passions

XPS products are designed to be the best, with cutting-edge technologies, exceptional build quality, unique materials and powerful features. XPS brings together the most elegant designs and premium experiences to enhance your work and personal success. This combination ultimately results in beautifully crafted products with no compromises.

## Experience first

XPS product decisions are rooted in the end user. We strive to deliver the best possible experience for each product we create for each specific user.

## Premium Design

XPS laptops are expertly crafted of premium materials like machined aluminum and glass for simplicity, beauty and durability.

## Innovation

Innovation starts with XPS, where we strive to deliver cutting-edge technologies like InfinityEdge displays and leading thermal designs to provide the most aggressive form factors and best customer experiences.

# The new XPS family

Sleek, iconic design in three new form factors brings unstoppable power to every project.

	XPS 16	XPS 14	XPS 13
	The iconic new XPS 16 delivers supercharged performance for your most demanding projects.	Unlock non-stop creativity with the XPS 14, a perfect balance of go-anywhere mobility and high performance.	Take performance anywhere with the sleek, powerful and ultra-portable XPS 13, our thinnest and lightest XPS.
Display	Up to 16.3" 4K+ OLED	Up to 14.5" 3.2K+ OLED	Up to 13.4" 3K+ OLED
Power	Up to 80W sustained performance	Up to 47W sustained performance	Up to 28W sustained performance
Processor	Up to Intel® Core™ Ultra 9 (45W)	Up to Intel® Core™ Ultra 7 (30W)	Up to Intel® Core™ Ultra 7 (28W)
Graphics	Up to NVIDIA® GeForce RTX™ 4070 Laptop GPU 8GB GDDR6 (60W)	Up to NVIDIA® GeForce RTX™ 4050 Laptop GPU 6GB GDDR6 (30W)	Intel® Arc™ Graphics
Starting at weight*	2.13kg (4.7lbs.) for FHD+ and UMA; 2.20kg (4.8lbs) for OLED	1.68kg (3.7lbs.) for FHD+; 1.74kg (3.8lbs) for OLED	1.19 kg (2.6 lbs) for FHD+ or QHD+; 1.17kg (2.6 lbs) for OLED

# Sleek, iconic design

The bold design of the XPS 13 Plus introduced in 2022 has forever changed the visual identity of the XPS brand. There is now one unifying design across XPS laptops. We have introduced new screen sizes with the XPS 16 and XPS 14, plus continue to offer the beloved XPS 13. This trio of laptops share elements that eliminate distractions and place the focus on productivity.

## Premium materials. Precision crafted.

XPS laptops are precision crafted out of premium materials like CNC machined aluminum and Gorilla® Glass 3. The construction is strong and durable, delivering a powerful, light, no-compromise product.

## Minimalist design

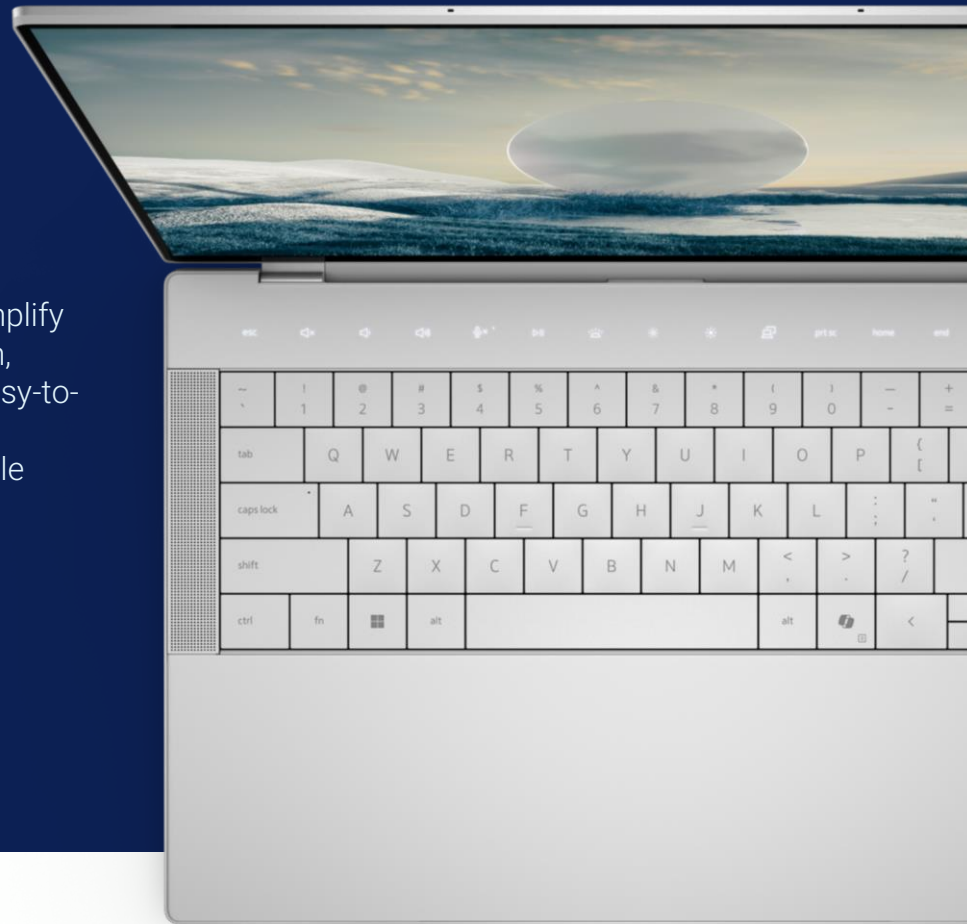

Simplicity in terms of processes and finishes. We removed superfluous steps, reduced finishes, and materials – and elevated the ones that remain. A finer bead blast is used to create a silky-smooth feel.

## Light or dark

Choose between two colors, Platinum or Graphite. The interior and exteriors are a tone-on-tone match, so the color is consistent.

# Innovative interiors

Modern, edge-to-edge interfaces simplify the overall design and deliver a clean, harmonious surface. Interiors are easy-to-use, comfortable and innovative. Enhanced interactive elements enable faster interactions, so users can maneuver around with ease.

## Seamless glass touchpad

Sleek glass across the entire palm rest simplifies, unifies, and elevates the interior design. Finish is cleaner, smoother, and friendlier to the touch.

The active touchpad area stretches from the Windows key to the back arrow key. With force pad haptics, a series of small, actuated motors provide precise, responsive feedback anywhere you click on the touchpad.

## Touch function row

Capacitive feedback provides a touch experience and allows users to toggle between media and function keys with ease, bringing forward only the icons they care about.

Easily switch between what is displayed by hitting the function + escape buttons.

Additionally, since it's not a physical row of keys, it also gives more room for the thermal solution.

## Comfortable keyboard

Designed with larger keycaps and a deeper dish (0.3mm), it's ideal for a touch typist.

Designed to be touch-friendly with no space between the keys. Fast, efficient, and comfortable with every keystroke, so you can type with ease.

# Power in motion

### Up to 47W of sustained performance

Powered by up to Intel® Core™ Ultra 7 processors, plus NVIDIA RTX™ graphics, the XPS 14 delivers high performance in a thinner and lighter form factor than our XPS 16. And it's up to 1.6x higher performance than our XPS 13, making it a perfect combination of performance and portability.

### Intel® Evo™ platform

Enjoy a laptop with high performance, a fast-charging battery that lasts for hours, wakes instantly and is packed with innovative features in a thin and light design.

### Unlock the power of AI

With CPU, GPU and additional AI engine, unlock new AI experiences to boost your productivity. Enjoy more AI-accelerated experiences\*, while enabling performance optimization and power savings resulting from putting the right workload on the right engine.

### NVIDIA RTX™ 40-series graphics

Edit videos and export them faster. NVIDIA® GeForce RTX™ 40 Series Laptop GPUs power laptops designed for gamers and creators, providing more horsepower when you are editing images, video and playing high-resolution video, like Netflix in 4K, so you don't experience lags. Available with up to RTX 4050.

### Further With AI, Faster on RTX

Supercharge your content creation with over 100 AI-enabled and RTX accelerated creative apps—including the Adobe Creative Cloud suite, Blender, and more. The XPS 16 is an NVIDIA Studio-validated system, which is purpose-built for creators, tested and validated to deliver fast and fluid performance across the most challenging creator workflows.

### Lightning-fast memory and storage

Superfast LPDDR5x memory is 55% faster\* than before. That means more data can get through faster, so you aren't slowed down and can multi-task with ease.

Storage up to 4TB\* that's also super fast allows you to store all your files on your laptop and take them with you and access them quickly.

### WiFi 6E\*

With Intel® Wi-Fi 6E AX211 (Gig+), enjoy optimized Wi-Fi performance via faster speeds with improved responsiveness and reliability across the 6 GHz spectrum, free from legacy Wi-Fi interference.

GPU	TGP
NVIDIA® GeForce RTX™ 4050	Optimized mode: 30W Performance mode: 30W

# Thermal management

## Personalized performance

Easily adjust and customize your laptop's performance settings between four different modes: optimized, performance, cool and quiet modes, so your laptop runs how you want it. You can tune to your specific situation.

## Easy setup and sharing of accessories

Optimized mode enables the best balance of performance and thermals. In ultra-performance mode, your system may run warmer, and fans may be louder. Cool mode will limit temperature or decrease fan noise, which may impact system performance.

## MyDell

Look for the Power setting in MyDell in your system tray to adjust performance to your specific needs.

The screenshot shows the Dell Power settings application. At the top, it displays the battery level at 50% and is connected. Key metrics include Battery Health (Good), Time to Full Charge (18min), and Charging Rate (80% / hour). Below this, the Dynamic charge policy (Recommended) is shown as ON. The Charging mode section offers five options: Adaptive, Primarily AC, ExpressCharge™, Standard, and Custom, with a note that it is managed by Dynamic Charge Policy. The Thermal management section shows four modes: Optimized, Cool (selected), Quiet, and Ultra Performance. A preference is checked to allow MyDell to synchronize thermal management mode with Windows performance. At the bottom, the Intelligent battery extender and Peak shift features are shown as OFF.

# Stunning display

## 14.5-inch InfinityEdge display

Pioneered by XPS. Enables a beautiful edge-to-edge view and a smaller form factor.

## 100% DCI-P3 color

More vibrant color. A greater range of colors (up to 26%) than sRGB. So, when you are creating, you'll access that greater range of color for more accuracy.

## Up to 120Hz Variable refresh rate

Dynamically adjusts based on the frame rate of content you are viewing.

Moving content is smoother and feels snappier, even when browsing the web. Improves your battery life when viewing static content like images or web pages.

## OLED option

6.4 million individually lit pixels turn off completely for black, so dark areas are true black, enhancing dark scenes in movies. Color pops against that backdrop with wide color gamut making your photos and videos stand out. Perfect black provides phenomenal contrast ratio (1,000,000:1) so content comes alive with breathtaking detail especially in dark areas.

## Up to 3.2K+ (3200 x 2000)

See precise detail and crisp, sharp images when viewing and editing so you don't have to zoom in (260 PPI).

## Eyesafe® Technology

Reduces harmful blue light and optimizes eye comfort without distorting color.

## Dell Premier Color

Offers advanced display color management and customization, so you tune your color to exact specifications, so they are consistent across devices.

## Dolby Vision

Ultra vivid color, sharp contrast and rich details with Dolby Vision. Unlocks the full potential of HDR technology by dynamically optimizing the image quality based on your service, device, and platform to deliver mesmerizing visuals every time. You experience deeper blacks and whiter whites.

# Immersive sound

## 8W Quad Audio

2W Woofers + 2W Tweeters for 8W total audio. A combination of up firing and down firing speakers make your music and content sound more immersive.

## Professionally tuned

Speakers tuned by multi-Grammy Award® winning producer, Jack Joseph Puig.

## Dolby Atmos + Waves

Experience 360-degree spatial audio with Dolby Atmos and 3D stereo surround sound experience with Waves MaxxAudio delivering immersive, rich cinematic experience on your favorite movies, music and games.

# Be seen and heard with clarity

Crystal clear video calls with intelligent FHD webcam reduces noise in the frame, while intelligent audio reduces background noise.

## Higher resolution, intelligent webcam

Our new XPS webcam is 1080p or 2x the resolution of previous generations. Temporal noise reduction technology shows off the best of you in crisp detail under a variety of lighting conditions, especially low light.

## Windows Hello

The infrared camera is Windows Hello ready, so you can log in with just a look.

## Presence detection

Your webcam with presence detection and Windows Hello also conveniently logs you in instantly when you step in front of your laptop, saving you time. It also automatically locks your PC when you are away.

## Intelligent audio

Intelligent audio reduces background noise and optimizes audio so you can hear and be heard with clarity on video chats.

## Windows Studio Effects

Feel together even when you're apart. Windows Studio Effects can make staying in touch on camera simple and natural.

- Background blur and voice focus keep the focus on you and what you're saying.<sup>1</sup> All without any impact on your PC's performance.
- The new eye contact feature makes it look like your eyes are meeting your audience's as much as possible.\*
- With automatic framing, your camera can follow you as you move—allowing you to stay in-shot as you move around the kitchen during a call, for example.<sup>1</sup> You can also share your screen from the taskbar.

The new XPS family has its highest level of sustainable materials yet\*

#### Low-carbon + recycled aluminum

The laptop is designed with an innovative combination of recycled and low emissions aluminum\* and post-consumer recycled plastics,\* which helps lower the carbon footprint of the laptop by up to 89%\*.

#### Breakthrough Design

Made of at least 25% recycled materials\*  
75% recycled aluminum, 25% low emissions aluminum\*  
21% recycled glass\*  
At least 25% post-consumer recycled plastic\*

## Sustainability

#### Environmental Benchmarks

Rated Energy Star 8.0 and meets the highest criteria with the EPEAT gold registration, now with Climate+ designation. With Climate+ this laptop has met the industry's best practices for decarbonization.\*

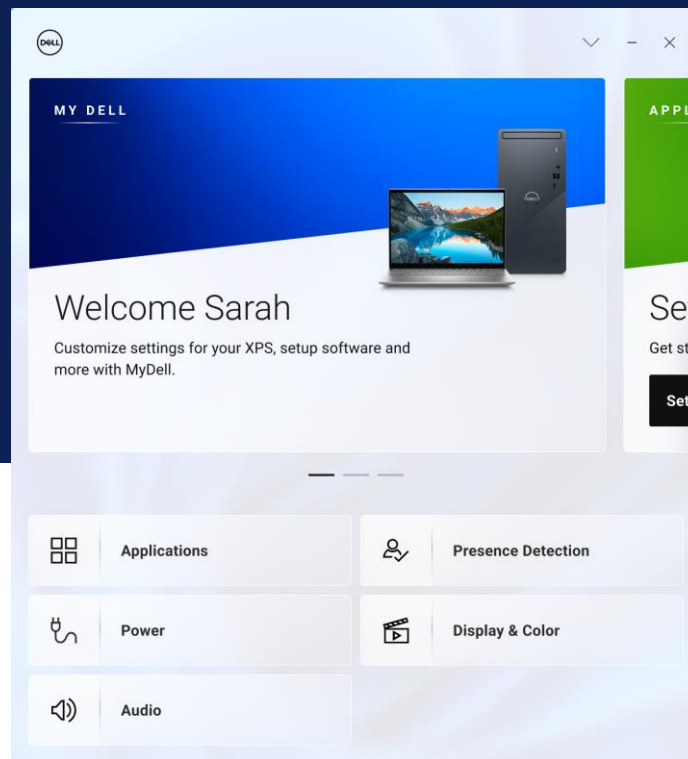

#### Adapter

The XPS 14 ships with an energy saving adapter\* designed with post-consumer recycled plastics, recycled aluminum and recycled copper.\*

#### Premium packaging

The XPS 14 ships in packaging made with 100% recycled or renewable content and is 100% recyclable.\*

# Simplify your life

## My Dell

Set your priorities and organize your navigation with MyDell. MyDell features AI-based optimization software that delivers intelligent features and customizable settings to fine-tune your PC for optimal audio, video, battery, and overall PC performance.

## Connect with ease

Seamlessly connect your laptop with any phone. Transfer files and photos, make and receive calls, send and receive texts, and manage photo notifications.

With Dell Pair\*, you can now connect your Dell Bluetooth devices effortlessly and securely\* in just one click\*.

# Windows 11 Copilot

**Copilot in Windows 11 complements your capabilities and creativity with intelligent assistance and relevant answers. Your own personal AI assistant built right in to do the heavy-lifting so you can do the extraordinary. With Copilot get real answers, inspiration, and solutions for your questions, projects, and to-do-list.**

## There to help with tasks

Copilot is at your fingertips as your intelligent assistant, and it works across many different apps on Windows 11.\*

- Copilot is at your fingertips as your intelligent assistant, and it works across many different apps on Windows 11.\*
- It keeps you in the flow so you can stay focused on the tasks at hand without switching back and forth.\*

## Get answers, inspiration, and summaries

Find the relevant information and ideas you need to power your own ingenuity. Copilot in Windows 11 can deliver answers that are more relevant to you.\*

- Ask questions and get answers fast
- Ask follow-up questions in the way you talk
- AI can generate imagery from your ideas
- Kickstart your writing process

See important details, page 20.

## You're in control

It's ready when you are. Copilot in Windows 11 can be docked in a side pane or summoned with a shortcut (Win+C). That way, you never have to wait for an answer.\*

- Copilot is the partner you can trust. You are in control and can leverage when you need it.\*
- Copilot will request access to your webpage content and permissions to your information
- Add plug-ins of your favorite apps.\*

## Windows Copilot key

Designed to make it even easier to get things done with Copilot in Windows – all with the press of a key – and faster access to the suite of Microsoft's AI tools.

# Recommended Accessories

**Dell UltraSharp 27 Thunderbolt Hub Monitor | U2724DE**

Experience a new level of visual comfort and productivity with this hub monitor certified by TÜV for 5-star eye comfort. Designed with extensive connectivity and the power of Thunderbolt 4.

**Dell UltraSharp Webcam | WB7022**

Experience best image quality in its class with the world's most intelligent 4K webcam.

**Dell Thunderbolt 4 Dock | WD22TB4**

Modular thunderbolt dock with swappable modules for easy upgrades and SuperBoost technologies for fast charging.

**Dell Collaboration Keyboard and Mouse | KM900**

Designed with a surreal level of detail, our premium keyboard and mouse combo transform collaboration, enhance productivity and provide all-day comfort.

**Dell 6-in-1 USB-C Multiport Adapter | DA305**

A compact multiport 6-in-1 adapter that offers video, network, data connectivity and up to 90W power pass-through for your laptop.

**Dell Premier Collaboration Keyboard | KB900**

The world's first Zoom-certified\* rechargeable keyboard, built to transform collaboration, enhance productivity and provide all-day comfort.

**Dell Premier Rechargeable Wireless Mouse | MS7421W (Glacier or Graphite)**

Get uninterrupted productivity with a rechargeable mouse that offers up to six months battery life on a full charge. Connect up to three devices and recharge in just two minutes for a full day's work.

**Dell Premier Rechargeable Mouse | MS900**

Premium mouse designed with a surreal level of detail to be extremely comfortable and easy to use thanks to its sculpted curves, innovative scroll wheel and powerful battery.

**Dell EcoLoop Premier Slim Backpack 15 | PE1520PS**

Travel light while making a positive impact on the environment by selecting the compact, eco-friendly Dell EcoLoop Premier Slim Backpack 15 (PE1520PS) with EVA foam cushioning to protect your laptop from impact.

# Premium Support included

## Premium Support

- Hassle-free, 24/7 access to experts + on-site support
- Support: troubleshooting and fast resolution with hardware and software issues.
- One year of Premium Support is included with your XPS

## Upgrade to Premium Support Plus - The most immersive PC experience

- All the perks of Premium Support included (anytime/where)
- Accidental damage repairs
- AI-driven support that optimizes your PC and prevents issues before they happen
- Virus and Malware detection and removal

## Important details

**Memory:** Graphics & System Memory: GB means 1 billion bytes and TB equals 1 trillion bytes; significant system memory may be used to support graphics, depending on system memory size and other factors.

**Hard Drives:** GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less.

The **Bluetooth wireless version** may vary depending on the operating system that is installed on your computer.

**Weights** vary depending on configuration and manufacturing variability.

**Wi-Fi 6E** compatible router required. Router requires separate purchase. Wi-Fi 6E connectivity only available in select countries. Check availability with your service provider.

**Windows Studio Effects:** Windows Studio Effects (background blur, eye contact, voice focus, and automatic framing) are hardware dependent and require a qualified Neural Processing Unit (NPU).

**EPEAT:** EPEAT registration varies by country. Please see [www.epeat.net](http://www.epeat.net) for specific country registration and rating.

**BFR/PVC free:** XPS notebooks exclude BFRs and PVC from the core product per the INEMI definition of BFR/PVC Free. External adapters, power cords, peripherals and service parts may be excluded unless otherwise specified.

**Recycled materials:** Based on internal analysis, November 2023. Percentages are based on total system weight.

**Low emissions aluminum:** Based on internal analysis, November 2023. Lid, bottom cover and Palmrest: 75% recycled aluminum and 25% low emissions aluminum

**Recycled glass:** Based on internal analysis, November 2023

**Recycled plastic:** Based on internal analysis, November 2023. The percentage is based on plastic weight

**Energy saving adapter:** TBD

**Adapter recycled materials:** Based on internal analysis, November 2023. 95% post-consumer recycled plastic in the case and AC socket, 98% recycled aluminum in the adapter shielding and thermal module and 50% recycled copper in the adapter cable, magnetic wires and thermal module.

**Packaging:** Made with 92.2% recycled content and 7.8% renewable content in the form of sustainably forested materials. Excludes optional items added to order and included in box. Paper packaging materials can be recycled via municipal recycling, where available. System bag is made from recycled plastic and can be recycled along with other thin plastics. See local recycling guidelines

**Climate+:** Based on internal analysis, November 2023. Based on EPEAT Climate+ Designations achieved in all applicable countries. EPEAT registered where applicable. EPEAT registration varies by country. See [www.epeat.net](http://www.epeat.net) for registration status and tier levels.

**Dell Pair:** Dell Pair is available with select commercial and consumer PCs; availability and functionality vary by model. For more details visit

<https://www.dell.com/support/kbdoc/000201693>.

**Dell Pair securely:** Dell Pair meets the strongest security standard for Bluetooth Low Energy pairing of mouse. Based on Dell Analysis. October 2022. For more details visit Guide to Bluetooth Security <https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-121r2-upd1.pdf>.

**Dell Pair one-click:** Dell Pair Based on initial pairing.

**Windows Copilot:** Timing of feature delivery varies by device. Feature availability varies by market. Requires Microsoft account to login.

**Zoom-certified keyboard:** Based on Dell analysis of publicly available information of competitive Personal Zoom Room keyboards, August 2022.
